User Manual Desktop Buddy

Dear User welcome to the Computer Assistant Desktop Buddy made by Kamil Stefan Szynalski
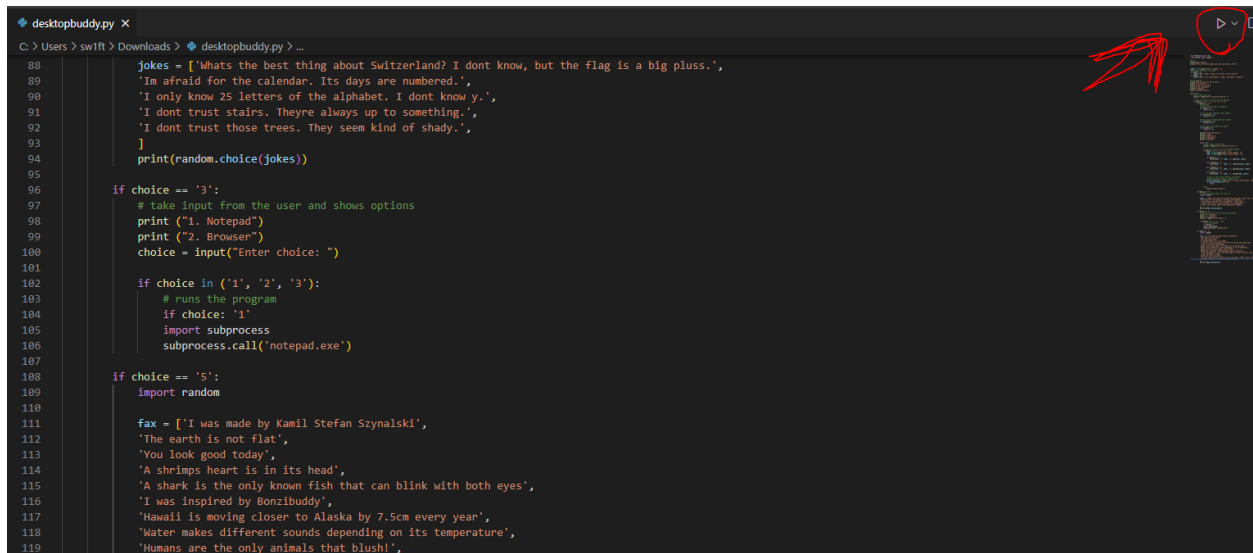

This is a user manual to help you get a better understanding of Desktop Buddy

**So, the purpose of Desktop Buddy is to help you with computer tasks like:**

Searching on google, running programs, calculate, tell you facts, jokes and much more

So in the Alpha version of Desktop Buddy, you can only run the program through python or external programming software like Visual Studio Code. Please use the Install manual for Desktop Buddy if you encounter any problems running Desktop Buddy on these programs

Desktop Buddy has many functions which will be available to you once you run the program as shown here

```
desktopbuddy.py

C: > Users > sw1ft > Downloads > ❖ desktopbuddy.py > ...
88          jokes = ['Whats the best thing about Switzerland? I dont know, but the flag is a big pluss.',
89          'Im afraid for the calendar. Its days are numbered.',
90          'I only know 25 letters of the alphabet. I dont know y.',
91          'I dont trust stairs. Theyre always up to something.',
92          'I dont trust those trees. They seem kind of shady.',
93          ]
94          print(random.choice(jokes))
95
96      if choice == '3':
97          # take input from the user and shows options
98          print ("1. Notepad")
99          print ("2. Browser")
100         choice = input("Enter choice: ")
101
102         if choice in ('1', '2', '3'):
103             # runs the program
104             if choice: '1'
105             import subprocess
106             subprocess.call('notepad.exe')
107
108     if choice == '5':
109         import random
110
111         fax = ['I was made by Kamil Stefan Szynalski',
112         'The earth is not flat',
113         'You look good today',
114         'A shrimps heart is in its head',
115         'A shark is the only known fish that can blink with both eyes',
116         'I was inspired by Bonzibuddy',
117         'Hawaii is moving closer to Alaska by 7.5cm every year',
118         'Water makes different sounds depending on its temperature',
119         'Humans are the only animals that blush!',

Hello buddy
From 1 to 10 how would you rate your day so far?
Enter a number:
```

Here u wanna enter a number based on your day in the console as shown here:

```
Enter a number: 10
That's good, I hope I can make it even better
What do you want me to do?
1.Calculate
2.Tell me a joke
3.Run programs
4.Search
5.Random facts
Enter choice(1/2/3/4/5): ▌
```

After that the console should write out this and from here its up to you how you want to operate
